17. October. — 4

Sir,

In reference to the Director's letter of this date, drawing attention to an error in my tabulated Statement of Refining for the Month of July, 1884, I beg to say that the total of Silver refined "without gold, during that month, was —— $26,369.97 instead of $27,369.97. I generally make several transcriptions of the Statement with the view of eliminating error, and in a former one the error in question had been eliminated, and I regret that a copy containing it was forwarded. I respectfully offer, with the former Statement corrected, another copy more in accordance with my intention.

Very respectfully,

Hon. A. Loudon Snowden,
Superintendent.

I. A. C. Booth.
